## EXPERIENCE

### **Chariot Creative**

Feb 2024 – Present

#### *Web Developer*

- Work remotely to develop custom WordPress sites by transforming Figma designs into pixel-perfect, cross-browser compatible experiences that seamlessly meet client-specific needs through the integration of tailored themes and plugins
- Manage monthly maintenance, plugin updates, error investigations, and client reports for multiple WordPress sites.
- DNS Management
- Work closely with coordinators and project managers to meet project milestones and deadlines.
- Conduct thorough cross-browser testing, troubleshooting, and proofing of work before internal QA; implemented innovative design elements including animations.

### **JLB Works**

Sept 2022 – Feb 2024

#### *Web Developer*

- Collaborate closely with senior developers to craft responsive, user-friendly websites using HTML, CSS, and JavaScript.
- Orchestrate the development and refinement of responsive web designs, seamlessly integrating new features and functionalities to ensure peak performance and cross-browser compatibility across diverse devices. Demonstrate proficiency in conducting rigorous website testing and swiftly addressing bugs, thereby guaranteeing impeccable functionality and exceptional user experiences.
- Leverage ACF Blocks to create highly customizable, dynamic fields for custom content, empowering clients to autonomously manage and edit their content.
- Work collaboratively with the design team to translate mock-ups and wireframes into fully functional web pages, preserving design integrity throughout the development process.
- Proficiently implement smooth animations and interactive elements to elevate user engagement and enhance overall website appeal.
- Successfully managed independent remote work, maintaining consistent communication and providing regular updates to the team.
